

TABLE OF CONTENTS

| PLENARY ADDRESS | | |
|--|--|-------|
| Heppell, S. | Conservation Success Scales with Successful Partnerships | 1 - 4 |
| SCIENCE, MANAGEMENT, AND SOLUTIONS TO ADDRESS MARINE LITTER IN THE CARIBBEAN AND GULF OF MEXICO | | |
| Corbin, C. | Solid Waste and Marine Litter Management Trends in the Wider Caribbean Region. | 5-6 |
| Ali, F, R, Glazer and C. Corbin | Introducing the Caribbean Node of the Global Partnership on Marine Litter (GPML-Caribe) | 7-9 |
| Caporusso, C. and M. Hougee | Harmonizing Marine Litter Monitoring in the Wider Caribbean Region: A Hybrid Approach" | 10-11 |
| Ambrose, K., C. Box, J. Boxall, A. Brooks, M. Eriksen, J. Fabres, G. Fylakis, and T.R. Walker | Spatial Trends and Drivers of Marine Debris Accumulation on shorelines in South Eulethera: The Bahamas Using Citizen Science | 12-15 |
| Jaggernauth, A., M.E. Taylor, F. Khan, and P. Rosa | Impact of Marine Debris Among Different Coastline Types in Grenada, West Indies | 16-18 |
| Siqueira Morais, L.M., F. Sarti, D. Chelazzi, A. Cincinelli, T. Giarrizo, and J.E. Martinelli Filho | The Sea Anemone <i>Bunodosoma cangicum</i> as a Potential Sentinel Species for Microplastic Pollution on the Amazonian Coast | 19-21 |
| Aldana Aranda, D., P. Caillat, V. Castillo Escalante, and M. Enríquez Díaz | Molluscs as Indicators of Microplastic Pollution in the Gulf of Mexico | 22-26 |
| PELAGIC AND RECREATIONAL ECOSYSTEM FISHERIES | | |
| Torres, J. and S.A. Nelson | Analysis of Management Strategies for the Red Snapper Recreational Fisheries in the Gulf of Mexico | 27-29 |
| Millender, A., J.M. Higgs, N.J. Brown-Peterson, and J.S. Franks | A Preliminary Life History Assessment of Swordfish, <i>Xiphias gladius</i> , Landed in the Northern Gulf of Mexico | 30-32 |
| Wilson, M., J. Lawson, M.I. Rivera-Hechem, and J.C. Villaseñor-Derbez | Documenting Status and Mapping Suitability of Caribbean Moored Fish Aggregation Device (MFAD) Fisheries | 33-35 |
| Pitt, J., J. Welch, and C. Eddy | The Reproductive Biology of Baitfish Species in Bermuda | 36-37 |
| Welch, J., T.J.T. Murdoch, S.R. Smith, and J. Pitt | Examining the Temporal and Spatial Distribution of Baitfish Species in Bermuda's Coastal Waters | 38-40 |
| REEF FISHERIES AND SPAWNING AGGREGATIONS | | |

| | | |
|---|---|-------|
| Zayas-Santiago, C.M., R.S. Appeldoorn, M.T. Schärer- Umpierre, and J.J. Cruz-Motta | Red Hind <i>Epinephelus guttatus</i> Vocal Repertoire Characterization, Behavior and Temporal Patterns | 41-52 |
| Morley, D., A. Acosta, T. Kellison, J.C. Taylor, J. Brownscombe, A. Adams, and L. Cherubin | Reef Fish Spawning Research in the Florida Keys: Science and Management for the Past 10 Years | 53-56 |
| Rowell, T.J., G.L. D'spain, O. Aburto-Oropeza, and B.E. Erisman | Female Abundance and Spawning Prospects Drive Sound Production in a Territorial Male Grouper: Implications for Monitoring Fish Spawning Aggregations | 57-59 |
| Taylor, C., M. Karnauskas, L. Cherubin, M. Schärer-Umpierre, and W.L. Michaels | Outcomes from the Workshop to Improve Monitoring and Abundance Estimation of Fish Spawning Aggregations | 60-61 |
| MARINE PROTECTED AREAS (MPAS) SCIENCE AND MANAGEMENT | | |
| Rios Sais, G.A., I. López, and M. Prada | Construcción Colectiva de la Base de Datos Integral de Áreas Marinas Protegidas de CaMPAM Necesaria para Mejorar la Conservación de la Biodiversidad Marina en el Caribe | 62-63 |
| Feliz, P., N. Florestal, M. González, G. Grebe, G. Hodgson, I. Irazabal, S.J. Lois, J. Jeune, H. Kerrigan, G. Mcdermott, N.M. Toribio, M. Menard, E. Montero- Fortunato, R.S. Steneck and R.E. Torres | Monitoreo de la Salud Arrecifal en la Española: Estado y Tendencias de los Arrecifes de Coral de la República Dominicana y Haiti | 72-74 |
| Cruz-Motta, J.J., R. Appeldoorn, M. Scharer, J. Olson, E. Appeldoorn, and F. Melende | Inferring Marine Protected Areas Effectiveness Out of Temporal Patterns Alone: The Case of Two Marine Protected Areas of Puerto Rico | 75-76 |
| Eckrich, C. | Striving for a Blue Destination – Finding Common Ground | 77-78 |
| Fulton, S., G. López, and E. Rolón | We're Going to Make a Marine Reserve, but Who is Going to Pay for It? | 79-88 |
| Lysenko, N., F. Pella, E. Scepi, F.A. Scaramuzzo, And Y. Acevedo | Decision Support System, Based on a Set of Information, Data and Indicators, for Integrated Management of the Coastal-marine Environment. Final Outcomes of the Caribbean EBM-DSS Pilot Project of Dominican Republic | 89-91 |
| Walcott, J., A. Shepherd, H. Armstrong-Vaughn, and J. Courrau | The Caribbean Protected Areas Gateway – Supporting Better MPA Management | 62-63 |
| SOCIO-ECONOMIC AND GOVERNANCE | | |
| Bowman, C., S.C. Mangi, and H.A. Oxenford | Stakeholders' Perceptions of the Managed Access Programme in Belize: A Q-methodology Approach | 92-93 |
| Mateo Pérez, J.G. | An Overview of Twenty Years of Fishery Management in the Dominican Republic | 94-97 |

| | | |
|---|---|---------|
| Zambrano Romero, S., M. Ginebra, I. Irazaba, M.Silva de la Cruz, C. García Cartagena, and J. Mate | Estrategia Nacional de Pesca en República Dominicana: 2019 – 2024 | 98-106 |
| Karnauskas, M., M. Mcpherson, S. Blake, S. Sagarese, J. Walter, D. Goethel, M. Jepson, and A. Rios | Identifying Priorities for Ecosystem-based Management in the Gulf of Mexico Through a Participatory Process | 107-108 |
| Cabrera-Pichardo, J. | Participación de la Mujer Dominicana en el Sector Pesquero | 109-110 |
| Botto-Barríos, D., L.M. Saavedra-Díaz and A. Santos-Martínez | Estado de los Recursos Pesqueros en la Zona Norte Del Pacífico Colombiano ante la Implementación de la Zona Exclusiva de Pesca Artesanal en un Contexto Socio ecológico | 111-112 |
| Margolis, S. and G. Lapointe | Modernizing Fisheries Information in the Gulf of Mexico and Caribbean | 113 |
| Hawk, M. | Challenges and Successes in Small-Scale Fisheries in the Marine Stewardship Council's Program | 114-115 |
| Vallès, H., W. Romain, and L. Mérisier | The Impact of Moored Fish Aggregation Devices (FAD) on the Artisanal Marine Fishery in Southeast Haiti | 116-118 |
| COMMUNICATION AND POLICY | | |
| Wade, E. | A Methodological Approach to Systematically Assess stakeholder Perspectives in Fisheries Management | 119-121 |
| Poon Kong, N. | Establishing a Coral Restoration Program on the private island of Mustique | 122 |
| Montes de Soto, N. and C. Sidman | A Profile of the Gulf and Caribbean Fisheries Professional Development Program | 123-124 |
| Young, R., G. Roberts, L. Fields, and R. Confair | Update on the U.S. Marine Mammal Protection Act Import Provisions: Implementation Process and Analysis of Marine Mammal Bycatch in Commercial Fisheries | 125 |
| EFFECTIVE FISHERIES MANAGEMENT: REDEFINING FISHERIES POLICIES IN THE GULF OF MEXICO & THE CARIBBEAN REGION | | |
| Miller, V. | Effective fisheries management redefining fisheries policies in the Gulf of Mexico and the Caribbean region | 126-128 |
| Acosta, A, R. Glazer, M. Prada and P. Debels | Developing a Process for Identifying Fisheries Research Priorities | 129-131 |
| REEFS AND ASSOCIATED ECOSYSTEMS: LOBSTER, CONCH OTHER INVERTEBRATES | | |
| Issac, L.E., M. Davis, C. Booker, C. Taylor, E. Carey, S. Cant, A. Lundy, and L. Gittens | Preliminary Findings: Testing an Egg Farm as a Method to Increase Reproduction of Queen Conch, <i>Lobatus gigas</i> , in The Bahamas | 132-139 |

| | | |
|--|--|---------|
| Sanders, M.B., A. Joseph, P. Mitchell, I. Tew, A. Kennerley, J. Shephard, M. Stone, S. Ross, D. Minardi, D. Bass, R. Van Aerle, M. Freeman, V. Severieux, L. Benson, R. Arosio, and K. Bateman | Overcoming the Challenges Facing Spiny Lobster Mariculture In Small Island Developing States (SIDS). | 140-142 |
| Santos-Valencia, J.S.C., M. de Jesús Can-González, and J. Rodríguez-Duarte | Ciclo Reproductivo de <i>Lobatus gigas</i> en Banco Chinchorro, México | 143-148 |
| Appeldoorn, R. | Maturation and fecundity in the queen conch: individual variability and the effects of density | 149 |
| Aldana Aranda, D., F. Chong, P. Santana, and R. Andreze-Louison | Does the Age of the Queen Conch Female (<i>Lobatus gigas</i>) Affect Steroid Hormones and Fecundity? | 150-153 |
| Kitson-Walters, K., A.S. Candy, N.K. Truelove, M.E. Roye, M.K. Webber, K.A. Aiken, and S.J. Box ³ | Fine-Scale Population Structure of <i>Lobatus gigas</i> in Jamaica | 154-164 |
| Matthews, T.R., A.J. Spadaro, R.D. Bertelsen, and L. Yee | Value Enhancement of Spiny Lobster (<i>Panulirus argus</i>) for the Live-lobster Export Market | 165-167 |
| Sonia Bourgeois-Lebel, S. and S. Mege | Strategy for the Sustainable Management of Edible Semi-terrestrial Crab Species <i>Cardisoma guanhumi</i> (Land Crab) and <i>Ucides cordatus</i> (Ghost Crab) by the National Park of Guadeloupe | 168-171 |
| Surmont, E., P. Fletcher, and C. Keenan | Variables Influencing Spat Recruitment of <i>Crassostrea virginica</i> and <i>Crassostrea rhizophorae</i> in an Estuarine Environment | 172-174 |
| HABITAT ECOSYSTEM FISHERIES | | |
| Stoffers, T., M. De Graaf, M.A.M. Machiels, and L.A.J. Nagelkerke ¹ | Spatial Distribution, Relative Abundance and Size Composition of Reef-associated Sharks on St Eustatius, Saba and the Saba Bank (Caribbean Netherlands) | 175-177 |
| McPherson, M., M. Karnauskas, S. Blake, A. Rios, S. Sagarese, and M. Jepson | Using Oral Histories and Participatory Mapping to Understand the Biological Impacts and Resilience of Fishermen to Red Tides on the West Florida Coast. | 178-180 |
| Furman, K. and S. Scyphers | Spatial Variation and Social Equity in Shore-based Recreational Fisheries in Key West, Florida | 181-183 |
| Cambronero-Solano, S., R. Benavides, F. Solís-Marín, and J.J. Alvarado | New Reports of Echinoderms on the Caribbean Continental Slope of Central America | 187-201 |
| Wongbusarakum, S., T. Kindinger, and M. Gorstein | Do Scientists and Managers Think and Feel the Same About Data? Insights from the Pacific Island Region | 202-205 |
| Abril-Howard, O., R. Azcarate, A. Abril-Howard, A. Rojas-Archbold, and J. Medina Calderon | Deep Sea Monitoring Using ROV Technologies in the San Andres, Providence and Santa Catalina Archipelago, Colombian Caribbean. | 175-177 |
| REEF FISH ECOSYSTEM: DEMERSAL FISHERIES | | |

| | | |
|---|---|---------|
| Bolser, D., J.P. Egerton, A. Grüss, T.C. Loughran, T. Beyea, K Mccain, B.J. Gallaway, and B.E. Erisman | Drivers of Variation in the Distributions of Fishes Associated with Petroleum Platforms in the Northwestern Gulf of Mexico as Derived from Submersible-rotating Video Surveys | 206-208 |
| Paris, M.L. and S.T.Szedlmayer | Validation of Annular Increments and Formation Timing in Otoliths of Red Snapper (<i>Lutjanus campechanus</i>) | 209-211 |
| Tzadik, O.E., W.S. Arnold, M. Brooks, J.J. Cruz-Motta, G. Garcia-Moliner, M. del Mar Lopez, T.L. Rankin, A.M. Sabine, and S.P. Stephenson | Using Opportunistic Datasets to Infer Spatial Management Strategies of Local Fisheries in the U.S. Caribbean Region | 212-214 |
| Santos-Martínez, A., A. Rojas Archbold, M.I. García Escobar and C.Y. Llanos Ruiz | Dinámica de la Pesca Artesanal y Propuestas de Manejo Sustentable, Providencia y Santa Catalina, Reserva de Biosfera Seaflower Caribe Colombiano | 215-228 |
| Semmens, B., C.V. Pattengill-Semmens, and M. Kramarz | Long-Term Trends in Caribbean Parrotfish Abundance at Local, Regional, and Basin-wide Scales: Implications for Fisheries and Ecosystem Management | 229 |
| Pattengill-Semmens, C. | A Clearer Picture: How Digital Cameras and Other Technologies have changed Marine Life Surveys over the Last Three Decades | 230-231 |
| Johnson, M., J. Koss, and E. Towle | From Habitat Mapping to Fish Abundance: NOAA's coral reef monitoring program, methodologies, and usefulness as a Caribbean-wide tool for fishery-independent sampling. | 232 |
| Maskrey, B., T. Lovell, I. Horsford, A. Robertson, and A.D. Turner | Ciguatera Poisoning in Antigua and Barbuda: Working Towards a Risk Management Strategy | 233-235 |
| SARGASSUM IN THE GULF AND CARIBBEAN | | |
| Beltré Díaz, M.J. and J. Infante | Evaluación de la Llegada del <i>Sargazo</i> a las Costas Dominicanas: Su Impacto en la Producción Pesquera Durante el Año 2018 | 236-245 |
| Iporac, L.A., S. Olszak, D. Burkholder, and L. Collado-Vides | Lessons and Challenges in Piloting “ <i>Sargassum</i> Watch,” A Citizen Science Program to Monitor Pelagic <i>Sargassum</i> Landings in South Florida | 246-252 |
| Baldwin, K., H.A. Oxenford, and J. Weekes | A Geospatial Approach to Quantifying Stranded <i>Sargassum</i> Seaweed Using Drones | 253-254 |
| Johnson, D.R., J.S. Franks, H.A. Oxenford, and S-A.L. Cox | Pelagic <i>Sargassum</i> blooms and dynamics of the north Tropical Atlantic | 255-256 |
| Martinez-Daranas, B. and A.M. Suárez | Las Arribazones de <i>Sargassum</i> Pelágico a las Costas Cubanas, 2012-2019 | 257-259 |
| Suarez, A.M. and B. Martínez-Daranas | Ideas para la Gestión de las Inusuales Arribazones de <i>Sargassum</i> a las Costas Cubanas | 260-262 |
| Collado-Vides, L., P. Cifuentes, N. Bally, L.A. R. Iporac, and S. Olszak | Variability of Nutrients and Trace Metals Tissue Content in Two Pelagic <i>Sargassum</i> (<i>Ochrophyta</i> , <i>Phaeophyceae</i>) Species from South Florida Compared with Global Data | 263-267 |

LIONFISH RESEARCH AND OTHER INVASIVE SPECIES

| | | |
|--|---|---------|
| Harris, H., A.Q. Fogg, R.N.M. Ahrens, M.S. Allen, and W.F. Patterson III | Substantial Population Declines in the Northern Gulf of Mexico Invasive Lionfish Following Disease Emergence | 268-270 |
| Candelmo, A., M. Mussey, J.A. Keller, J. Butler, J.C. Olson, and A. Acosta | A Deep Dive into Lionfish | 271-273 |
| Hutchinson, E., S. Hagedorn, J. Butler, C. Sweetman, and T.R. Matthews | Development of a Trap to Catch the Invasive Lionfish (<i>Pterois spp.</i>) | 274-277 |
| Schärer-Umpierre, M. | The purr of the lionfish: Sound and behavioral context of wild lionfish in the Greater Caribbean | 278 |
| Eddy, C., D. Martin, E. Martin, N. Martin, G. Hunter, T. Warren, and J. Pitt | The Reef Sweeper: A Remotely Operated Vehicle for Harvesting Invasive Lionfish Without Bycatch at Depths to 300 M | 279-280 |
| Hunt, C., C. Hudson, J. Williams, F. Noades, J. Curtis-Quick, and D. Exton | Invasive Lionfish Decrease Shelter-use in the Presence of Native Spiny Lobster | 281-282 |
| Kington, K. and D.R. Robertson | A NEW Alien Fish Species Discovered in Trinidad: This is NOT Another Lionfish Talk! | 283-285 |

CORAL DISEASE

| | | |
|---|---|---------|
| Gonzalez, M., I. Irazabal, R. Torres, R. Steneck and E. Montero | Distribution, Abundance and Prevalence of Coral Diseases Along the Coast of the Dominican Republic | 286-288 |
| Berkebile, N., S.A. Schopmeyer, R. Ruzicka, J. Moore, L. Gregg, K. O'neil, A. Bruckner, D. Gilliam, M. Martinellie, M. Johnson, E. Goergen, and K. Kerrigan | Multi-species Coral Rescue in Response to the Stony Coral Tissue Loss Disease on the Florida Reef Tract | 289 |
| Wusinich-Mendez, D. | Caribbean Cooperation on Response to Stony Coral Tissue Loss Disease Epidemic | 290-293 |
| Doyle, E., D. Wusinich-Mendez,, C. O'Sullivan, J. Lang., P. Kramer, and, L.Roth | Capacity Building Efforts to Address the Emerging Issue of Stony Coral Tissue Loss Disease in the Caribbean | 294-298 |

CLIMATE CHANGE

| | | |
|---|---|---------|
| Eyzaguirre, J., N. Tamburello, W. Cheung, C. Wabnitz, G. Reygondeau, R. Boyd, and S. Singh-Renton | A Climate-Smart Fisheries Toolkit for the Caribbean: Part 1 - Results of a Regional Ecological and Economic Assessment of Climate Change Impacts of Caribbean Fisheries | 299-303 |
| Tamburello, N., H. Stimson, T. Webb, J. Eyzaguirre, D. Pickard, M. Jones, R. Boyd, G. Reygondeau, and S. Singh-Renton | A Climate-Smart Fisheries Toolkit for the Caribbean: Part 2 – A Monitoring and Management Framework for Guiding Climate Change Adaptation in the Fisheries Sector | 304-306 |

| | | |
|--|--|---------|
| Felix, M-L | Strengthening Fisher Resilience to the Impacts of Climate Change through the use of Vulnerability and Capacity Assessment Tools in 3 Communities in Saint Lucia. | 307-316 |
| AQUACULTURE | | |
| Enriquez Diaz, M., V. Castillo Escalante, and D. Aldana Aranda | Programas Educativos sobre el Caracol Rosa en el Caribe | 317-321 |
| Davis, M., and R. Espinoza | Development of a Fishermen Operated Pilot-Scale Queen Conch (<i>Lobatus gigas</i>) Hatchery and Nursery Facility for Sustainable Seafood Supply and Restoration of Wild Populations in Puerto Rico | 322-324 |
| Prada, M., T. Forbes, C. Duffis, R. Diaz, and D. Stephens | Plan Para la Ordenación y Desarrollo de la Maricultura en el Departamento Archipiélago de San Andres, Providencia y Santa Catalina | 325-330 |
| POSTER ABSTRACTS | | |
| Alves, C.L. and J.F. Bruno | Assessing Fisher Perceptions of the Territorial User Rights for Fishing (TURF) Program: A Belizean Case Study | 331-333 |
| Appeldoorn Sanders, E., C.M. Zayas Santiago, M.T. Schärer Umpierre, R.S. Appeldoorn, and R.L. Hill | Comparing the Diversity of the Soundscapes at Two Fish Spawning Aggregation Sites in Western Puerto Rico | 334-336 |
| MacDonnell, C., F. Bydalek, A. Thornton, T. Osborne, and P. Inglett | Plant Performance and Nutrient Effects of Conventional and Sustainable Fertilizers in Seagrass Restoration | 337-339 |
| Pitt, J. and J.L. Welch | An Evaluation of the Baitfish Fisheries in Bermuda | 340-341 |
| Alzugaray, R; R. Puga; S. Valle; O. Morales; A. Hernández; K. Kleisner; E. Boné; T. Mangin; L. López; K. Karr | Bioeconomic modeling of multispecific fisheries in the southeast platform of Cuba | 342 |
| Andrés, N; J. Pérez; K. Torres Palacios; Paola Andrea Mejía Falla; Sandra Pardo Carrasco; N. Bolaños Cubillos; E. Castro González; A. Rojas Archbold | <i>Hypanus americanus</i> In San Andres Island, Colombian Caribbean, and their Relationships with Supplementary Food as a Touristic Activity. | 343 |
| Atis, M; F. Burrows; G. Hall | Sustaining Fisheries and Livelihoods in Haiti's, Three Bays Protected Area Community | 344 |
| Azcarate, R; E. Castro; M. F. Maya; A. Rojas-Archbold; J. P. Caldas; M. C.A Diaz Granados; M. Gnecco | Large scale reef restoration in the Seaflower Biosphere Reserve - San Andres, Providence and Santa Catalina Archipelago, Colombian Caribbean | 344 |
| Azcarate, R; A. Rojas-Archbold; E. Castro; D. L. Gomez | Status of the queen conch (<i>Lobatus gigas</i>) (Linnaeus, 1758) populations in the Seaflower biosphere reserve and sustainable management implications. | 345 |
| Bernus, J. | CARIMAM (Caribbean Marine Mammal Preservation Network): Standardized monitoring protocols across the Caribbean | 346 |
